SITUATION REPORT EN 12/62 as of 030500 Nov 62.

Summary of Special Operations

Period 020500 Nov 62 - 030500 Nov 62. All times are Eastern

Standard unless otherwise indicated.

1. INTELLIGENCE

a. Military.

(1) Photo reconnaissance of 1 Nov reveals that all known IIRBM sites in Cuba are now being dismantled. The launch pads have been destroyed, apparently by bulldozing. Missiles and launch equipment have been removed, and their present location is unknown. In the absence of recent high altitude survey coverage, the existence of alternate deployment sites cannot be excluded. Construction activity at the IIRBM sites has stopped and the installations have been partially destroyed. IL-28 bomber aircraft were being

worked on. One TL-28 was taxiing at the time of photography. Another appeared to be completely assembled, and two others were assembled except for engine cowlings. Three were assembled except for engines, and twenty-one remained in crates.

(2) [REDACTED] Five of the six probable nuclear warhead bunker sites previously observed in Cuba were also photographed 1 Nov and construction had apparently ceased at all five.

(3) [REDACTED] None of the Soviet cargo ships now in Cuba are capable of carrying IRBM's or MRBM's below deck.

b. Political

(1) [REDACTED] The body of Major Anderson, U2 pilot, who was shot down over Cuba is being released to US forces in Guantanamo.

(2) [REDACTED] The Cuban Government authorities have been gathering up arms. Such as pistols, revolvers, rifles, etc., which individuals have in their houses. This collection is also from militiamen.

2. [REDACTED] OPERATIONS. a. COMARC informed the appropriate commands that in the event of implementation of Plans 520 or 521 the personnel of units listed therein who are TDY to units in OPLAN 316-62 will remain on TDY. The plan will prescribe that units will deploy at assigned strength. However, under the present emergency, personnel on TDY units in OPLAN 316-62 will not be available (DA IN 284911).

b. Movement of OPLAN 316 units (DA IN 285119 and DA IN 285108).

(1) Trains 1 through 6 of 7 trains transporting equipment of the Floating Reserve, 1st Armored Division departed Ft Hood

DA WASH DC

Texas for Ft Stewart, Ga. Train 6 departed Ft Hord 022143Z Nov and the ETA at Ft Stewart, Ga is 042343Z Nov.

(2) Personnel of the 2/52d Inf; Co C, 16th Engr Bn; Co C, 47th Med Bn; 123d Maint Bn; and elements of the 501st Sup & Trans Bn, 141st Sig Bn and 501st MP Co departed Temple, Texas and Connally AFB Texas by air. The first aircraft departed at 011412Z Nov and the last departed at 012133Z Nov. The ETA of the last flight at Savannah, Ga, is 020037Z and the ETA at Ft Stewart, Ga. has not been reported.

(3) The USAETTCG, New Orleans, La, has issued planning alert messages as of 020226Z Nov to all units for which that command has outloading responsibility.

c. Air Defense units. The 8/15 Arty closed at designated times 021830Z Nov (DA IN 283045).

3. Personnel and Administration - Negative.

4. Logistics. a. Directorate of Material Readiness of AEMC reports that the first of four supply increments of ARMY-STRAC-GEN-2-62 OP has been called forward by the OEA. Some items on which procurement action was necessary, will not be received until 4 Nov 1962, at which time the first increment will be positioned (DCSLOG)

b. CMO has advised MSTC to hold Atlantic transports in east coast ports as they arrive under present schedule (CMO msg 282219Z)

c. Facilities to support movement of units scheduled for outloading at Port Everglades, Fla, have been obtained or constructed. Two track vehicle rail unloading points, 6 IST loading sites, and a vehicle marshalling area were constructed, and temporary troop bivouac
